BECAUSE TOMORROW NEEDS A PLAN

RECOVERY MANAGEMENT

INNOVATIVE FINANCIAL SOLUTIONS FOR NEGLIGENTLY-INJURED PEOPLE

NO MATTER WHAT TOMORROW BRINGS, TOMORROW NEEDS A PLAN.

For those finally emerging from personal injury lawsuits, tomorrow will come with questions and a need for help. And no matter what tomorrow brings, tomorrow needs a plan. One that allows every day thereafter to fall into place as worry-free as possible. Trust, like answers, should not be hard to find—especially when it comes to securing and managing your recovery. And yet it is.

So much so that 90% of plaintiffs will squander their financial recovery within five years of settlement.* If this sounds unimaginable and unnecessary, it is. So we decided not to let another day go by where people who suffered once, would suffer twice.

We are The Halpern Group.

And more than a decade ago, we established a groundbreaking practice called Recovery Management. Simple in theory, the idea was to provide sound and safe strategies so that individuals and families alike could preserve their settlement or award—giving them the flexibility they deserve and the safety they need. So safe, in fact, that none of The Halpern Group's trusts can be sold to aftermarket factoring companies.

Today, we are the preeminent firm in Recovery Management. Our trust, expertise and reputation speak for themselves. Recently, we joined forces with one of the nation's largest and strongest banks in a move that quite simply and wisely suggests: the more people working on the plaintiff's behalf, the more answers we can provide.

Tomorrow the sun will rise. People will go to work. Children will go to school. And another day will unfold. Just don't let it go by without help from us.

THE HALPERN GROUP IS THE PIONEER AND PREEMINENT PROVIDER OF RECOVERY MANAGEMENT.

SPECIALLY CREATED TO PROTECT THE INTERESTS OF NEGLIGENTLY-INJURED PEOPLE AND THEIR FAMILIES FOR THE REST OF THEIR LIVES, RECOVERY MANAGEMENT IS DEEPLY COMMITTED TO FOUR KEY COMPONENTS:

- 1 UNPARALLELED EXPERTISE
- 2 PROPRIETARY INVESTMENT SOFTWARE
- 3 INNOVATIVE PRODUCTS
- 4 PERSONAL SERVICE

1

UNPARALLELED EXPERTISE

The Halpern Group developed Recovery Management for one specific reason—to preserve and grow settlements and awards achieved for negligently-injured people. It gives negligently-injured people access to what is rightfully theirs—their full recovery—while safekeeping the funds for future needs.

Our team of Recovery Management specialists is fully familiar with the unique circumstances, needs and concerns of injured plaintiffs. We bring to the table extensive experience in both asset management and disbursement for individuals with special lifelong needs and limited alternatives.

Statistics show that at least 90% of plaintiffs will squander their financial recovery within five years of settlement. Our passion and sole purpose is to protect negligently-injured people and their families. We have succeeded in reducing this number from 90% all the way down to less than 1%.

PROPRIETARY INVESTMENT SOFTWARE

The Halpern Group's Recovery Management offering is powered by our RM Software. This highly sophisticated software is specially engineered and designed to help Recovery Management specialists meet the unique financial needs of negligently-injured people—specifically, increasing returns relative to inherent risks and providing access to funds when needed most. RM Software is so powerful that it has historically outperformed the S&P 500 stock index—and has even been proven to grow funds—in recessionary periods.

This system operationalizes the most basic and powerful investment strategy in history for the risk-averse: buy low, sell high—providing clients with the confidence they need regardless of the overall economic climate.

PERSONAL SERVICE

Recovery Management seeks to strike a balance between desires and needs so that we do not sacrifice the future. With over 25 years of experience, we understand the challenges negligently-injured people face as a result of a profound injury or loss, and we are dedicated to helping overcome them. While Recovery Management products are flexible, they come with built-in protections to safeguard against unwise spending. This is referred to as “disbursement management.” We carefully consider each request for distribution and are always here to provide guidance—ensuring plaintiffs’ true needs are honored as dictated by the Agreement custom-designed with each plaintiff.

Dedicated to the absolute best interest of the plaintiff, we are realistic and financially flexible in order to tap into funds or adapt financially to the unforeseen challenges that may lie ahead.
